Chairman's Message

For over 150 years, we have been privileged to be at the forefront of designing the finest and most spectacular jewellery collections in India – jewellery that has exuded its own distinct style and class and has passed the test of time

Dear Shareholders,

It is indeed my privilege to present the Annual Report of your Company for the financial year ended 31st March, 2017. I am pleased to inform that our responsiveness and operational agility enabled us to improve on our previous year's results, reinforcing that our strategies are right and we are headed in the right direction. The theme for this year's Annual Report: 'Determined. Definitive. Decisive.' aptly symbolises this resolute focus on growth and value creation for all stakeholders.

For over 150 years, we have been privileged to be at the forefront of designing the finest and most spectacular jewellery collections in India – jewellery that has exuded its own distinct style and class and has passed the test of time. Our designs and collections continue to evolve as we closely map global trends and infuse it with our deep insight of the contemporary tastes of our customers. We have held on to our traditional strengths and while retaining the best of Indian craftsmanship, we have also invested in modern technology to enable flawless execution. It is these deep-rooted pillars that set us apart and are poised to etch our mark even deeper. It is this strength of brand TBZ and our innate passion for making remarkable jewellery that plays an invaluable role in our core business strategy as we continue to expand our footprints pan India.

During the year, we opened two new stores in Patna and Ranchi in the States of Bihar and Jharkhand. With this, we are now present in 26 cities across 11 states. We also renovated and re-launched our existing store in Vijayawada to offer a

larger retail space and an enhanced experience for our customers. We have also extended our reach by associating with leading online retailers.

We have successfully evolved the asset-light franchisee model wherein the stores are owned and operated by the franchisee. This approach enables us to expand operations with nominal capex and provides the business and entrepreneurial spirit of the country an opportunity to start their own venture in association with a trusted brand. Currently, we have a total of 33 stores, including 4 franchised stores. Over the next three years, we are optimistic of opening more franchised stores.

Financial Overview

FY2017 was an important year for the country with the roll out of the one nation - one tax i.e. the Goods and Services Tax (GST) which unifies the country's US\$ 2 trillion economy and catapults India into a select league of nations that have a national sales tax. Earlier during the year, the demonetisation move, aimed at driving the nation towards a cashless economy, ensured greater transparency. While demand remained subdued for the ensuing quarter, it has slowly and steadily picked up subsequently.

At TBZ, we remained focussed on our core business and achieved growth as we capitalised on the high festive demand in the earlier part of the year and the extended wedding season. By providing exclusive designs, personalised attention and customised services we maximised the available opportunities. Additionally, we fine-combed our operations to recalibrate and keep overhead costs

at the minimum. We consciously took measures to rationalise our inventory and this enabled us to reduce debt and enhance liquidity for working capital expenses. Our loyalty program – the Kalpavruksha scheme has been instrumental in not only increasing our customer base but has also incentivised customers to increase their value of purchase at the time of redemption.

To share our progress in numbers:

Total operating revenue increased to ₹ 1,70,024.20 Lakh in FY2017 from ₹ 1,65,477.72 Lakh in FY2016. We registered a profit of ₹ 1,853 Lakh in FY2017, as against a loss of ₹ 2,313 Lakh in FY2016. On a year-on-year basis, the gold jewellery average ticket size increased by 9.4% to ₹ 80,033 in FY2017 while the diamond average ticket size decreased marginally by 5.5% to ₹ 1,15,213 in FY2017.

Outlook

We believe that the low demand in FY2016 for gold in India was an aberration rather than a trend, caused due to unique and one-off events. The underlying demand for gold and jewellery still remains robust, given India's favourable demographics, the huge popularity of Indian weddings and festivals, and Indian customers' strong affinity for the yellow metal. Two consecutive years of normal monsoons in most parts of the country is also expected to boost the demand for gold from the rural market.

As customers increasingly seek extraordinary jewellery designs of the finest quality and craftsmanship, sealed with the promise of trust, we believe that TBZ - The Original is well-poised to serve and delight them. Through

our planned expansion of Company-owned and franchisee-owned stores, while optimising costs, we will continue to pursue the opportunities to grow our sales, profitability and productivity.

On a concluding note, my sincere gratitude to our shareholders for their continued confidence, to our customers for their patronage, our stakeholders for their support, and to our employees whose passion and commitment enable our achievements.

We look forward to a successful year ahead and beyond.

Corporate Social Responsibility

CSR Strategy

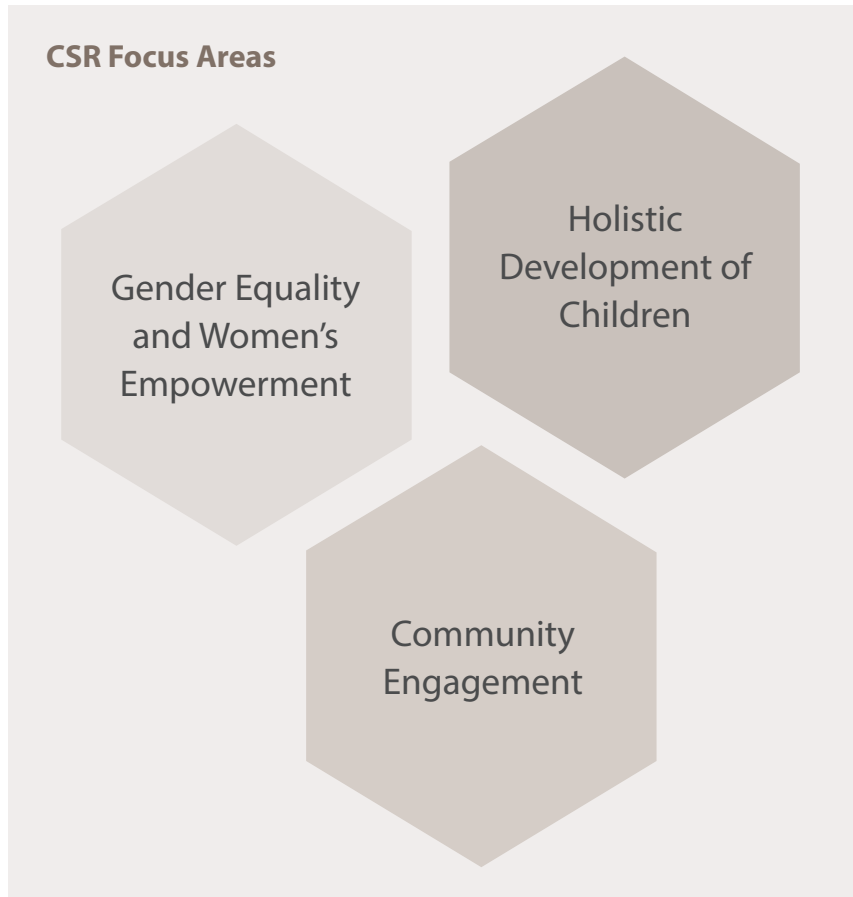

At TBZ - The Original, Corporate Social Responsibility means much more to us than mandates; it's an essential part of our everyday operations. We strongly believe in aspiring to develop a society in which all people, regardless of race, religion or culture, harmoniously live and work together for the common good in the near future.

Our view of CSR extends beyond charity; it is a means to create self-sustaining communities that we can nurture for a long period of time. We are committed to uplifting the social fabric of the society in which we operate, women being the centre of this development chain.

Hence, in the year 2016-17, we launched our flagship project Pankhi to support victims of domestic violence and help them to integrate back in their families. We also launched a special helpline number for victims to avail counselling support over the phone as well.

We deeply value our relationship with our employees, customers and partners and look forward to them being active participants in all our CSR endeavours. We will continue to focus on this area and be responsible Corporate Citizens.

Ms. Binaisha Zaveri
Whole-time Director
Tribhovandas Bhimji Zaveri Ltd.

Project Pankhi

The project aims at providing counselling and rehabilitation to the women victims of domestic violence through a central helpline (PANKHI) and face-to-face counselling services in accordance with The Protection of Women from Domestic Violence Act, 2005. Our partner for project implementation was SNEHA (Society for Nutrition, Education & Health Action).

Achievements for the year 2016-17 were:

1. Women's OPDs in four public hospitals

Through the Women's OPDs (outpatient departments) at four hospitals, we reached out to 853 clients. Of these, 735 cases (86%) were referred by the health care providers. The other 118 cases were referred by SNEHA staff, former

clients, self, helpline, campaigns, etc. 1,108 individual sessions were conducted in the four hospitals. In some cases, women required more than one counselling session. 281 joint counselling sessions were held between survivors of violence and the perpetrators (their spouses or marital/natal family members) to help the woman negotiate what she wanted as an outcome, whether it was reconciliation, separation, alimony, legal processes, etc. 540 sessions were devoted to the follow-up of other on-going cases.

2. Sessions with para-medical and support services

Through the 51 training sessions SNEHA conducted for the hospital staff, they found that the level of awareness on gender-based violence was quite low. An important

outcome of the training was that 17 hospital staff members who had attended the training sessions came to the Women's OPDs for help with personal problems they were having.

3. Awareness-raising events and campaigns

Through a 16-day campaign, we sensitised around 6,000 people on the subject of gender-based violence. Street plays, poster competitions, pamphlet distribution, games, talks, audio-visuals and film screening across all the hospitals were organised as part of the 16-day awareness campaign and on the occasion of Women's Day in March 2017. As part of the Women Day celebrations, a play was also written, directed and performed by the hospital counsellors.

4. Pankhi Helpline

The Pankhi Helpline (inaugurated on 8th September, 2016) handled 123 calls from its commencement until March 2017. While the majority of the calls of 82 women were from Maharashtra (67%), the remaining 41 calls came from across India. The phone number was promoted through TBZ Marketing Channels & SNEHA website. Many clients were comfortable with approaching an organisation for help through it.

Management Discussion and Analysis

Global economy

2016 shall go down in history as a year of surprises: first, with the UK choosing to exit the EU and then, with the election of the Republican candidate as the President of the USA. Both these events are expected to have a long-term impact on the geo-political and socio-economic landscape in days to come. Amidst a sentiment of nervous trepidation, the global economy grew at 3.1% in 2016 compared to 3.4% in 2015. Firming of interest rates by the US Fed and the turmoil in Chinese financial markets due to Yuan depreciation by the Chinese Central Bank also impacted growth. However, global economic outlook strengthened towards the end of 2016 with buoyant financial markets, cyclical recovery in manufacturing and trade, and firming oil prices.

With economic activity in both advanced, emerging and developing economies forecast to accelerate in 2017, the International Monetary Fund (IMF) has projected global growth to be 3.5%, with emerging economies expected to contribute positively to the overall global growth.

Indian economy

India remains the fastest growing emerging economy in Asia and the world. The Indian economy expanded by 7.1% in FY 2016-17. The key drivers included near-normal monsoon, benign inflation and the Government's focus to reinvigorate core sectors like infrastructure, manufacturing, housing as well taking measures to increase financial inclusion.

In addition to this, the Government's initiative to liberalise and simplify the foreign direct investment policies for several sectors, increased investments in infrastructure, focus on boosting rural economy by improving agricultural sector, facilitating entrepreneurship, and upgrading the taxation regime through implementation of the Goods and Services Tax bodes well for economic development.

Economic activity is expected to accelerate underpinned by a recovery in private investments, which are expected to get a boost by the recent increase in public capex and an improvement in the investment climate. The International Monetary Fund (IMF) projects India's growth rate to touch 7.2% in fiscal year 2018 and further accelerate to 7.7% in 2019.

Gems and Jewellery industry review

Indian gems and jewellery industry is one of the largest in the world accounting for nearly 29% share in global jewellery consumption. It is an integral part of the Indian economy being one of the leading foreign exchange earners, contributing close to US\$ 43 billion in FY 2016-17, and providing employment to more than 4.5 million people.

As per Gem & Jewellery Export Promotion Council (GJEPC), in FY 2016-17, the gem and jewellery exports accounted for 15.7% of the country's total exports. In the domestic market, gold jewellery constitutes the largest share followed by

diamond and platinum jewellery. It forms nearly 80% of the Indian jewellery market with more than 3,00,000 players across the country.

India is also the world's largest cutting and polishing centre for diamonds. With an 8% share, it has become the world's third largest diamond consumer too.

Domestic jewellery industry update

Demand:

During the fourth quarter of CY2016, that saw implementation of demonetisation, the gold demand in the country witnessed a 3% growth. This was on account of softening gold prices coinciding with the festive and wedding season. Stepping onto CY2017, the scenario further improved with India's demand for gold jewellery in the first quarter significantly surging to 92.3 tonnes compared to 22.9 tonnes in the US. During the same period, the investment demand for gold in the form of bars and coins was also high at 31.2 tonnes compared to 16.2 tonnes in the US.

For the full year CY2017, ICRA is bullish on the gold jewellery demand in India on expectation of easing liquidity pressures, extended wedding season, better farm output and rising income levels. It forecasts the gold jewellery demand to remain unaffected with the marginal rise in tax rates to 3% in GST regime and grow by 9% in value terms.

Exports and Imports:

India exported gems & jewellery worth US\$43.2 billion during FY2017, a rise of 12.32% over the previous fiscal's export figure of US\$39.2 billion, accounting for 15.7% of the country's total exports. The growth was primarily led by a surge in exports of pearls and synthetic stones, silver jewellery and rough diamonds.

Major export destinations for the industry were UAE which accounted for 32% of the total exports, followed by Hong Kong at 30% and the US at 23%.

After crossing the US\$40 billion exports mark, the trade body is now devising a strategy named 'Vision 2022' to enable India attain global leadership position in gems & jewellery in the 75th year of independence. The strategic focus will be on

exports, training & education, employment generation, value addition and sustained marketing. Gems and Jewellery Association is in the process of creating a jewellery park in Maharashtra and 10 common facility centres across India.

Gems and Jewellery Exports (USD billion)

(Source: GJPEC)

India imported 650 tonnes of gold in FY 2015-16. Gold imports in value terms declined by nearly 8% to US\$ 31.72 billion in FY 2015-16 from US\$ 34.98 billion in FY 2014-15 due to weak global prices. With global price trend expected to continue, the stress on country's current account deficit will not be high. Demonetisation also impacted the inbound shipments.

(Source: GJPEC)

Domestic jewellery

The Indian gems and jewellery market comprises gold and silver jewellery, diamonds, coloured stones and pearls, among others. Gold jewellery demand continues to dominate the market with ~80% share, followed by diamond jewellery at 19% and platinum jewellery at 1%.

The shifting trend of customers seeking product diversity, value for money, quality assurance and differentiated buying experience has led to organised players expanding their retail presence to widen reach. The retail gems and jewellery segment is growing at a fast pace of nearly 10% annually with the organised segment is growing at an even more accelerated pace.

The implementation of Goods and Service Tax (GST) for gold is marginally higher at 3%.

Regulatory scenario

Major regulatory changes in FY2017

Apr-16	Nationwide agitation of Gems and Jewellery Industry against imposition of 1% excise duty
Sep-16	Hallmarking of jewellery made compulsory to reinforce the consumer's trust
Nov-16	Demonetisation of high value currency notes led to temporary shrinkage in liquidity in hands of prospective buyers
Feb-17	Limit on cash transaction set at ₹ 2,00,000

Opportunities and threats

Opportunities

Jewellery volumes in India have remained resilient over the years aided by strong cultural affinity for the yellow metal and stable returns from the asset class. The major growth drivers for the industry are:

- **Stable asset class**
Gold has historically been one of the most stable assets providing investors best returns over a long-term horizon, compared to other assets.
- **An essential part of Indian culture**
Jewellery in India has traditionally been an integral part of weddings and festivals.

Astute Indian customers often purchase contemporary jewellery as a form of self-expression and this has led to evolution of distinct targeted collections including wedding wear, work wear, regular or daily wear and fashion wear as well as very premium limited edition signature collections.
- **Increasing affordability**
Rapidly expanding economy, increasing urban per capita income and government's focus to double farmers' income by 2022, huge opportunities will open up with increasing affordability of this segment.

- **Rising female workforce**
Better job opportunities, rising demand for skilled and professional workforce and rapid urbanisation are leading to increasing share of women in workforce. And by virtue of women being the primary consumers of jewellery, their increasing entry into workforce and disposable income are likely to drive the demand, going forward.
- **E-commerce**
With the rising internet penetration in the country, e-commerce is gaining significant boost with rising consumer confidence along with the advantage of ease in shopping, lucrative discounts, access to wider variety, free shipping, and quality assurance. Though, online sales through online channel is currently miniscule, it is gaining importance facilitating jewellers in reaching out to more customers.
- **Government support**
Realising the sector's potential, the Government has identified it to be a focussed area for export promotion. Adopting policies of 'Make in India' and 'Design in India' there is a strong intent to push growth. The Government has also undertaken various measures to promote investments and upgrade technology & skills to promote 'Brand India' in the international market.

By 2020, the Company intends to enhance its retail space by another 40,000 sq. ft. to 1,50,000 sq. ft. of this, nearly 75-80% of this expansion is planned to through this asset-light franchise model. The Company aspires to add 6-8 more franchises in the near future.

Enhancing shareholder value

The Company has focussed on enhancing shareholder value by improving margins through various initiatives that include:

- **Focus on sustainable high margins:** The Company aims to improve its margin profile by infusing higher efficiencies and optimising costs. Besides, the Company's expansion through franchise route, wherein the franchisee bears the complete inventory cost.
- **Inventory rationalisation:** The Company continues to focus on optimising and rationalising its inventory to further improve its inventory churn rate which will facilitate in enhancing profitability through debt reduction.
- **Continuing the 'Kalpavruksha' scheme:** The 'Kalpavruksha' scheme has proven to be a great success for the Company, as it not only ensures purchases in the form of redemption but increases purchase value as customers generally tend to purchase 50-60% higher than the scheme investment value at the time of redemption.
- **Gold metal loan:** The Company shall continue to increase its exposure to gold metal loan for sourcing gold to reduce commodity price linked risk save on interest cost as the cost of lease is significantly lower.

Management outlook

The rapidly evolving Indian retail landscape with rising disposable income is in favour of larger discretionary spending, thereby positively contributing to the demand in the branded jewellery segment. Going forward, the Company is optimistic of gradual rebound in discretionary demand backed by extended jewellery seasons. The Company shall continue with its strategic move of expanding through new franchise stores in the near term and grow its retail presence across India in an asset-light manner. Cost control shall be another important area of focus to improve margins and enhance shareholders' value. Strict compliance to regulatory changes remains the key for us.

Your Company had adopted recognition and measurement criteria relating to cash flow hedge accounting as set out in AS 30 "Financial Instruments: Recognition and Measurement" issued by the Institute of Chartered Accountants of India ('ICAI') for commodity forward contracts with effect from 1st April, 2014. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecasted transactions, any cumulative gain or loss on the hedging instrument recognized in hedging reserve is retained until

the forecast transaction occurs upon which it is recognized in the Statement of Profit and Loss. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss accumulated in hedging reserve is recognized immediately to the Statement of Profit and Loss.

Changes in the fair value of derivative financial instruments that have not been designated as hedging instruments are recognised in the Statement of Profit and Loss as they arise.

Annexure “B” to the Independent Auditor’s Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Act

We have audited the internal financial controls over financial reporting of Tribhovandas Bhimji Zaveri Limited (“the Company”) as of 31 March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and

evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that:

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

2.1 Basis of Preparation of financial statements

These financial statements have been prepared to comply in all material aspects with applicable accounting principles in India, the applicable Accounting Standards prescribed under Section 133 of the Companies Act, 2013 ('Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, as amended the provisions of the Act and other accounting principles generally accepted in India, to the extent applicable.

2.2 Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) in India requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Management believes that the assumptions used in the estimates are prudent and reasonable. Any revision to accounting estimates is recognized prospectively in the current and future periods.

2.3 Current -non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria :

- a. it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;

- b. it is held primarily for the purpose of being traded;
- c. it is expected to be realised within 12 months after reporting date; or
- d. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

Terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instrument do not affect its classification.

Current liabilities include current portion of non-current financial liabilities.

All other liabilities are classified as non-current.

Operating Cycle :

Based on the nature of services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

2.4 Fixed assets and depreciation / amortisation

Tangible Fixed Assets

Tangible assets are stated at acquisition cost, net of accumulated depreciation and accumulated impairment losses, if any. Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Notes to the Financial Statements for the year ended 31 March 2017 (Continued)

Tangible assets not ready for the intended use on the date of balance sheet are disclosed as "Capital work-in-progress".

Losses arising from the retirement of, and gains or losses arising from disposal of tangible assets which are carried at cost are recognised in the Statement of Profit and Loss.

2.4 Fixed assets and depreciation / amortisation (Continued)

Depreciation on fixed assets has been provided using straight line method over its useful lives in compliance with Schedule II in Companies Act, 2013, where hitherto Written Down Value method was adopted. Pursuant to this policy, the management estimates the useful lives for the assets as follows:

Factory buildings	30 years
Other buildings	60 years
Leasehold improvement	Primary period of lease
Plant and machinery	15 years
Computer equipment	3 to 6 years
Furniture and fixtures	10 years
Vehicles	8 years

Depreciation for the year is recognised in the Statement of Profit and Loss.

Intangible Fixed Assets

Intangible assets are recognised only when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of such assets can be measured reliably. Intangible assets are stated at cost less accumulated amortisation and impairment loss, if any. All costs relating to the acquisition are capitalised.

Intangible assets are amortised in the Statement of Profit or Loss over their estimated useful lives, from the date that they are available for use based on the expected pattern of consumption of economic benefits of the asset. The Company's intangible assets comprise of Computer software which are being amortised on a straight line basis over their estimated useful life of five years

Amortisation method and useful lives are reviewed at each reporting date. If the useful life of an asset is estimated to be significantly different from previous estimates,

the amortisation period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortisation method is changed to reflect the changed pattern.

2.5 Impairment of assets

Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cashflows expected to arise from the continuing use of the asset and its eventual disposal. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists or has decreased, the asset's recoverable amount is estimated and the carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

2.6 Investments

Long term investments are carried at cost. Provision for diminution in the value of long term investments is made only if such a decline is other than temporary.

2.7 Inventories

Inventories which comprise raw materials, finished goods, stock-in-trade and packing materials are carried at the lower of cost and net realizable value. Cost is determined on weighted average basis.

Cost of inventories comprises all costs of purchase and, other duties and taxes (other than those subsequently recoverable from tax authorities), costs of conversion and all other costs incurred in bringing the inventory to their present location and condition. In respect of purchase of goods at prices that are yet to be fixed at the year end, adjustments to the provisional amounts are recognised based on the year end closing gold rate.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

Deferred tax is recognised in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each balance sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

2.15 Earnings per share (EPS)

Basic earnings per share is calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.16 Provision, contingent liabilities and contingent assets

The Company creates a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the balance sheet date and are not discounted to its present value. These are reviewed at each year end date and adjusted to reflect the best current estimate. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may or may not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

2.17 Hedge accounting

The Company uses derivative financial instruments to manage risks associated with gold price fluctuations relating to certain highly probable forecasted transactions, foreign currency fluctuations relating to certain firm commitments and foreign currency and interest rate exposures relating to foreign currency loan, if any. The Company had adopted recognition and measurement criteria relating to cash flow hedge accounting as set out in AS 30 "Financial Instruments: Recognition and Measurement" issued by the Institute of Chartered Accountants of India ('ICAI') for commodity forward contracts with effect from 1 April

Notes to the Financial Statements

for the year ended 31 March 2017 (Continued)

2014. From 1 April 2016 the Company has adopted the Guidance Note on Accounting for Derivative Contracts issued by the ICAI in 2015 which is effective from 1 April 2016 for accounting of derivative instruments including hedge accounting. AS 30 stands withdrawn regarding matters covered under the said guidance notes from 1 April 2016 and was also subsequently completely withdrawn by the ICAI in November 2016. This change in accounting standard/policy has no significant impact on the financial statement of the Company.

The use of derivative financial instruments is governed by the Company's policies approved by the board of directors, which provide written principles on the use of such instruments consistent with the Company's risk management strategy.

Hedging instruments are initially measured at fair value and are remeasured at subsequent reporting dates. Changes in the fair value of these derivatives that are

designated and effective as hedges of future cash flows are recognised directly in hedging reserve and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecasted transactions, any cumulative gain or loss on the hedging instrument recognized in hedging reserve is retained until the forecast transaction occurs upon which it is recognized in the Statement of Profit and Loss. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss accumulated in hedging reserve is recognized immediately to the Statement of Profit and Loss.

Changes in the fair value of derivative financial instruments that have not been designated as hedging instruments are recognised in the Statement of Profit and Loss as they arise.

Annexure "A" to the Independent Auditors' Report on the Consolidated Financial Statements

(Referred to in our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

In conjunction with our audit of the consolidated financial statements of Tribhovandas Bhimji Zaveri Limited (hereinafter referred to as "the Holding Company") as of and for the year ended 31 March 2017, we have audited the internal financial controls over financial reporting of Tribhovandas Bhimji Zaveri Limited and its subsidiary companies (collectively referred to as "the Group") which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in

India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI

The consolidated financial statements of Tribhovandas Bhimji Zaveri Limited together with audited financial statements of its subsidiary companies ('the Group') as described in note no. 29.2 have been prepared on the following basis:

- (i) The financial statements of the Company and its subsidiary companies are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions and resultant unrealised profits or losses in accordance with Accounting Standard (AS) 21 - "Consolidated Financial Statements"

- (ii) The difference between the cost of investment in the subsidiaries, over the net assets at the time of acquisition of shares in the subsidiaries is recognised in the financial statements as Goodwill or Capital Reserve, as the case may be.

- (iii) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements.

2.3 Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) in India requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Management believes the assumptions used in the estimates are prudent and reasonable. Any revision to accounting estimates is recognized prospectively in the current and future periods.

All assets and liabilities are classified into current and non-current.

- a) it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded ;
- c) it is expected to be realised within 12 months after reporting date; or

All other liabilities are classified as non-current

Operating Cycle :

2.5 Fixed assets and depreciation / amortisation

Tangible assets

Tangible assets are stated at acquisition cost, net of accumulated depreciation and accumulated impairment losses, if any. Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

If Significant parts of an item of property, plant and equipment have different lives, than they are accounted for as separate items (major components) of property, plant and equipment.

Tangible assets not ready for the intended use on the date of balance sheet are disclosed as "Capital work-in-progress".

Losses arising from the retirement of, and gains or losses arising from disposal of tangible assets which are carried at cost are recognised in the Statement of Profit and Loss.

Depreciation on fixed assets has been provided using straight line method over its useful lives in compliance with Schedule II in Companies Act, 2013, where hitherto Written Down Value method was adopted. Pursuant to this policy, the management estimates the useful lives for the assets as follows:

Factory buildings	30 years
Other buildings	60 years
Leasehold improvement	Primary period of lease
Plant and machinery	15 years
Computer equipment	3 to 6 years
Furniture and fixtures	10 years
Vehicles	8 years

Depreciation for the year is recognised in the Statement of Profit and Loss.

Intangible assets

Intangible assets are recognised only when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of such assets can be measured reliably. Intangible assets are stated at cost less accumulated amortisation and impairment loss, if any. All costs relating to the acquisition are capitalised.

Intangible assets are amortised in the Statement of Profit or Loss over their estimated useful lives, from the date that they are available for use based on the expected pattern of consumption of economic benefits of the asset. The Company's intangible assets comprise of computer software which are being amortised on a straight line basis over their estimated useful life of five years.

Amortisation method and useful lives are reviewed at each reporting date. If the useful life of an asset is estimated to be significantly different from previous estimates, the amortisation period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortisation method is changed to reflect the changed pattern.

2.6 Impairment of assets

The Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cashflows expected to arise from the continuing use of the asset and its eventual disposal. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists or has decreased, the asset's recoverable amount is estimated and the carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the

Notes to the Consolidated Financial Statements

for the year ended 31 March 2017 (Continued)

carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

2.7 Goodwill / Capital Reserve

Goodwill/Capital Reserve represents the excess/short cost of investment in Subsidiaries over the Company's portion of equity of the subsidiary at the date on which investment is made. Goodwill is amortised over a period of three years and tested for impairment, annually or more frequently if events or changes in circumstances indicate that its carrying value may be impaired. Any impairment loss is recognised immediately in the Statement of Profit and Loss and is not subsequently reversed.

2.8 Investments

Long term investments are carried at cost. Provision for diminution in the value of long term investments is made only if such a decline is other than temporary.

2.9 Inventories

Inventories which comprise raw materials, finished goods, stock-in-trade and packing materials are carried at the lower of cost and net realizable value. Cost is determined on weighted average basis.

Cost of inventories comprises all costs of purchase and, other duties and taxes (other than those subsequently recoverable from tax authorities), costs of conversion and all other costs incurred in bringing the inventory to their present location and condition. In respect of purchase of goods at prices that are yet to be fixed at the year end, adjustments to the provisional amounts invoiced by the vendor are recognised based on the year end closing gold rate.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

2.10 Borrowing Costs

The amount recognised as revenue is exclusive of sales tax and value added taxes (VAT), and is net of excise duty, returns, trade discounts and quantity discounts. Revenue from services is recognized upon rendering of services to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Interest income is recognized on a time proportion basis taking into account outstanding and the interest rate applicable.

Dividend income is recognised when the right to receive payment is established.

2.12 Foreign exchange transactions

Foreign exchange transactions are recorded at the exchange rates prevailing on the dates of the transactions. Exchange differences arising on foreign exchange transactions settled during the period are recognized in the Statement of Profit and Loss of that period.

Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the closing exchange rates. The resultant exchange differences are recognized in the Statement of Profit and Loss.

In respect of forward exchange contracts, the premium or discount arising at the inception of such a forward exchange contract is amortized as expense or income over the life of the contract. Exchange differences on such contracts are recognised in the Statement of Profit and Loss of the reporting period in which the exchange rates change.

2.13 Employee benefits

Short-term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

Notes to the Consolidated Financial Statements

The Company makes specified monthly contributions towards Provident Fund, which is a defined contribution plan, at the prescribed rates. Defined benefit plans

The Company's gratuity benefit scheme is a funded defined benefit plan. Contribution to the Company's Gratuity Trust and provision towards gratuity are provided on the basis of an independent actuarial valuation carried out at the end of the year using the projected unit credit method and are debited to the Statement of Profit and Loss on an accrual basis. Actuarial gains and losses arising during the year are recognised in the Statement of Profit and Loss.

Other long-term employee benefits

Compensated absences

The Company provides for encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits for future encashment / availment. The Company makes provision for compensated absences based on an independent actuarial valuation carried out at the end of the year using the projected unit credit method. Actuarial gains and losses are recognised in the Statement of Profit and Loss.

2.14 Employees Stock Option Scheme

The excess of the intrinsic value of shares, at the date of grant of options under the Employee Stock Option Schemes of the Company, over the exercise price is regarded as employee compensation, and recognised on a straight-line basis over the period over which the employees would become unconditionally entitled to apply for the shares.

2.15 Leases

Lease rentals in respect of assets acquired under operating lease are charged to the Statement of Profit and Loss on straight line basis.

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income on an operating lease is recognised in the Statement of Profit and Loss on a straight-line basis over the lease term. Costs, including depreciation, are recognised as an expenses in the Statement of Profit and Loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognised immediately in the Statement of Profit and Loss.

2.16 Income taxes

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year). Income-tax expense is recognised in Statement of Profit or Loss except that tax expense related to items recognised directly in reserves is also recognised in those reserves.

Current tax is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the applicable tax rates and tax laws. Deferred tax is recognised in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is virtual / reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each balance sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

2.17 Earnings per share (EPS)

Basic earnings per share is calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity

Notes to the Consolidated Financial Statements for the year ended 31 March 2017 (Continued)

shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.18 Provision, contingent liabilities and contingent assets

The Company creates a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the balance sheet date and are not discounted to its present value. These are reviewed at each year end date and adjusted to reflect the best current estimate.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may or may not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

2.19 Hedge accounting

The Company uses derivative financial instruments to manage risks associated with gold price fluctuations relating to certain highly probable forecasted transactions, foreign currency fluctuations relating to certain firm commitments and foreign currency and interest rate exposures relating to foreign currency loan, if any.

The Company had adopted recognition and measurement criteria relating to cash flow hedge accounting as set out in AS 30 "Financial Instruments: Recognition and Measurement" issued by the Institute

of Chartered Accountants of India ('ICAI') for commodity forward contracts with effect from 1 April 2014. From 1 April 2016 the Company has adopted the Guidance Note on Accounting for Derivative Contracts issued by the ICAI in 2015 which is effective from 1 April 2016 for accounting of derivative instruments including hedge accounting. AS 30 stands withdrawn regarding matters covered under the guidance notes from 1 April 2016 and was also subsequently completely withdrawn by the ICAI in November 2016.

This change in accounting standard/policy has no significant impact on the financial statement of the Company.

The use of derivative financial instruments is governed by the Company's policies approved by the board of directors, which provide written principles on the use of such instruments consistent with the Company's risk management strategy.

Hedging instruments are initially measured at fair value and are remeasured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised directly in hedging reserve and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecasted transactions, any cumulative gain or loss on the hedging instrument recognized in hedging reserve is retained until the forecast transaction occurs upon which it is recognized in the Statement of Profit and Loss. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss accumulated in hedging reserve is recognized immediately to the Statement of Profit and Loss.

Changes in the fair value of derivative financial instruments that have not been designated as hedging instruments are recognised in the Statement of Profit and Loss as they arise.
