Total Bank Loan Facilities Rated	Rs.7350 Million
Long Term Rating	CRISIL A-/Stable (Reaffirmed)

(Refer to Annexure 1 for Facility-wise details)

Rs.500 Million Commercial Paper Programme	CRISIL A2+ (Assigned)
--	------------------------------

CRISIL has reaffirmed its rating on the long-term bank facilities of Tribhovandas Bhimji Zaveri Ltd (TBZ) at '**CRISIL A-/Stable**', and has assigned its '**CRISIL A2+**' rating to the company's commercial paper programme.

The ratings continue to reflect TBZ's established market position with a strong brand, and its moderate financial risk profile, marked by healthy net worth, moderate gearing and healthy liquidity. The rating also factors in the expected improvement in the company's operating performance following favourable regulatory changes such as lifting of the 80:20 rule on gold imports and reinstatement of gold on lease model. These rating strengths are partially offset by TBZ's exposure to intense competition in the jewellery industry, and large working capital requirements to fund its inventory.

TBZ's performance was impacted in 2013-14 (refers to financial year, April 1 to March 31) by the unfavourable regulatory environment which led to tight supply side curbs and a ban on the gold on lease model. The operating margin declined to 7.6 per cent in 2013-14 from 9.1 per cent in 2012-13. Interest and finance costs also increased as the company no longer had access to the gold on lease scheme. TBZ's performance deteriorated during the six months ended September 30, 2014 because of declining gold prices, discounts offered to spur demand and expenditure incurred in association with two new stores. Nevertheless, CRISIL believes that TBZ's operating performance will improve with the lifting of supply side curbs and reinstatement of the gold on lease model, expected increase in demand during the wedding season spanning from November to March and cautious expansion plans. Despite weak operating performance, TBZ maintained its moderate capital structure and ample liquidity to support its working capital requirements.

Outlook: Stable

CRISIL believes that TBZ will maintain its established market position over the medium term, supported by its promoters' extensive industry experience and strong brand equity. The outlook may be revised to 'Positive' if the company registers a substantial and sustained improvement in its revenue and profitability margin without deterioration in its capital structure. Conversely, the outlook may be revised to 'Negative' if TBZ registers a steep decline in its profitability margin or revenue or contracts sizeable debt to meet its working capital requirements or expansion plans, thereby adversely affecting its capital structure and liquidity.

About the Company

TBZ, promoted by Mr. Shrikant Zaveri, was set up in 1864; the company is one of India's oldest jewellery houses, and was reconstituted as a public limited company from a private limited company on December 3, 2010. TBZ expanded its operations, and has a pan-India presence through its network of 28 retail showrooms in 22 cities across 9 states, from a single showroom at Zaveri Bazaar in Mumbai.

For 2013-14, TBZ reported a profit after tax (PAT) of Rs.550.5 million on an operating income of Rs.18.24 billion, as against a PAT of Rs.686.4 million* on operating income of Rs.16.58 billion for 2012-13. For the six months ended September 30, 2014, TBZ reported a PAT of Rs.10.72 million on operating income of Rs.8.58 billion (Rs.242.8 million on operating income of Rs.8.55 billion in 2013-14 for the corresponding period).

* after adjusting for Rs.163.6 million of expenses incurred to raise funds through an initial public offering (IPO).
